Sophia Home

is a design-based group that is now active in sketching and producing various vases. Our focus is on minimalism and attention to detail. We believe that more attention should be paid to “Plants” as important factors of designing internal and external spaces, and therefore we provide the best supplies to implement this notion. Sophia Home has been honoured to cooperate with distinguished designers, professional architecture offices, and active construction industry members. Nowadays, we develop our products for vast areas of outdoor furniture and indoor accessories.
